VALUE LINE ASPEN LOG FURNITURE

Value Line Aspen Log Furniture is a line of aspen wood creations designed for the bedrooms of our value-minded customers. This furniture line is handcrafted by the same craftspeople who build our Designer Line. The majority of the value engineering is by use of plywood sides on case goods and reduced rails on beds and chairs.

Attention to Detail

Our Rustic Arts Log Furniture line has its own class of design features and is meticulously created from nicely characterized aspen wood.

- All casegoods (dressers, chests, etc.) have dovetail drawers for strength and stability and are available in half-log or flat drawer fronts. These pieces have aspen corner trim and leg bases.
- The casegoods tops showcase thick, naturally-curved log edges on the front and sides.
- High-quality roller glides and durable hinges are used throughout.
- All pieces are hand-rubbed with linseed oil and beeswax sealant for a rich, natural luster. The casegoods tops are protected with a hand-brushed polyacrylic finish for ease of dusting and stain resistance.
- Beds and nightstands feature proven mortise and tenon construction.

Aspen tree in autumn

Aspen Trees

Our log furniture creations begin their lives as "dead standing" aspen trees. Utilizing this natural resource helps us create interesting and beautiful furniture, and is also a benefit to the forest and the environment.

Aspen trees in the Rocky Mountains are known for their shimmering golden leaves in autumn. In creating Rustic Arts Log Furniture we release another kind of beauty from the aspen. We carefully peel the bark with a drawblade, then hand sand each log to accent and showcase nature's beauty.

Snowload Series Queen ~ "Snowload" refers to the weight of the snow that gives the aspen tree exotic twists and bends. Also shown, 1-Drawer, 1-Door nightstand and Armoire-with Doors.

What would a rustic bedroom be like without a natural log bed? Incomplete! So we put a great deal of thought and meticulous craftsmanship into our affordable handcrafted beds.

We've designed these sturdy Corral beds to fit around a metal bed frame. Each series is available in full, queen, and king—or cal-king sizes. Dual side rails provide support, while the lower rails hide the metal frame. All joints utilize time-tested mortise and tenon construction, and each hearty aspen spindle fits snugly into the stringer, creating a genuinely handcrafted look. For the final touch, all beds are hand-rubbed with linseed oil and beeswax for a rich, natural finish.

Plateau Headboard

If you just want a log touch in the bedroom, a headboard can be purchased separately in the Plateau or Snowload series. The bottom posts of our headboards are flattened for an easy connection to your bed frame.
